

Professional Summary

Product Designer specialized in CRO and experimentation for DTC e-commerce. 288+ designs shipped across A/B tests for 14 brands, with 54 winning tests averaging a +7.5% conversion lift. Builds systems that make experimentation faster, from design systems to AI-assisted workflows with Claude and Figma. Front-end development background (PERN stack) for precise handoff to engineering.

Professional Experience

Product Designer Mood May 2026 - Present	- Own the DTC funnel design end to end: landing pages, advertorials, quizzes, PDPs and growth experiments, from hypothesis to shipped test. - Built Touchbase, a landing page decision system that turns one product and pain point into a full set of direct response variants, one per audience, mapped by awareness level and traffic temperature. - Built an AI-assisted production workflow with Claude and Figma that drafts each variant directly from the Touchbase brief. - Design and ship CRO experiments with paid media and data teams, matching ad angles to landing page messaging. - Maintain the design system (tokens, components, publishing workflow) that powers fast experiment iteration.
UX/UI Designer CRO & Growth DTC Pages May 2025 - May 2026	- Led design execution for CRO experimentation across 14 DTC brands, including 7-9 figure Shopify stores, covering acquisition, product and checkout funnels. - Shipped 288+ designs across A/B tests and implementations, including 54 winning tests averaging a +7.5% conversion lift. - Best results: +20% conversion rate on a mobile offer page and +27% revenue per visitor. - Designed test variations for landing pages, PDPs, quizzes and checkout, informed by heatmaps, scroll depth analysis and UX audits, working with CRO specialists, analysts and developers on the experimentation roadmap.
UX/UI Design Teaching Assistant (Part-time) Coderhouse May 2024 - Jun 2025	- Mentored cohorts of 50+ students in UX/UI. - Provided feedback and extracurricular support, contributing to a 40% increase in course evaluation scores.
UX/UI Designer CloudX Jul 2024 - May 2025	- Led UX/UI design for a SaaS financial platform integrating AI-driven prediction features. - Designed user flows and interfaces to improve usability and decision efficiency. - Collaborated with product and engineering teams in an agile environment.
UX/UI Designer (Contract) Bessell Consultancy Services May 2023 - Jul 2024	- Designed user-centered digital products across healthtech and fintech industries. - Partnered with developers and product stakeholders to improve usability and accessibility.
UX/UI Designer Design System Umoob Oct 2022 - May 2023	- Contributed to the development of a scalable design system using Atomic Design methodology. - Created reusable components improving design consistency across products.
